# HELLO!

Thank you so much for joining me for the mini sessions! I put together this little guide to help you plan. If you have any questions at all, please don't hesitate to ask, I'm here to help!

## *Timing*

I'll be scheduling sessions throughout the day so I do ask that you arrive on time, and not early, to your session time. I've planned for enough time for us to chat and not be rushed at all during your session, so don't worry!

## *During the Shoot*

I'll give you lots of direction while we're shooting and I love getting you guys playing around and being candid. I have some tools I use with the kiddos too so they hopefully don't dread having their photos taken. Just remember to keep it loose and fun and I'll help you along the way!

## *After the Shoot*

I'll have the final images to you within one week after the session. You'll receive an email with a link to an Online gallery where you'll see all the images I've edited and from there you can choose the 10 images you want to download. You will be able to purchase additional images, order prints and I even have a special album for these sessions, all available through your gallery!

# WHAT TO WEAR

Stay away from anything too matchy-match (no white polos and jeans!) and instead coordinate colors and patterns as if you're pulling ONE outfit together.

Texture is a great thing to incorporate into an outfit. A thick chunky sweater, fur vest or flowy lace dress is great. For my men, stay away from the athletic type shirts with the super shiny fabric, it gets weird in photos, so opt for a cotton or linen dress shirt instead!

Don't forget the shoes! Steer away from athletic shoes and try boots, leather shoes, or even a classic keds type shoe. Those are especially great for the kiddos!

# *Call me!*

Or text me, or email me if you're freaking out about what to wear;  
want to know more about a product or are having trouble finding the location.

I'm here to help so please don't hesitate!
